Moringa School [11 Aug 2025 – Current]

Kenya Certificate of Secondary Education

Mukaa Boys' High School [1 Feb 2015 – 28 Nov 2018]

WORK EXPERIENCE

Aga Khan University Institute for Human Development

Research Assistant

[15 Jan 2024 – 31 Dec 2024]

I was under contract at The Aga Khan University Institute for Human Development, Nairobi as a Research Assistant where by I performed the following duties;

- **Data Analysis & Reporting:** Analyzed large health and developmental datasets using **Python** and **SQL**, supporting data-driven insights across research projects and also generated analytical summaries and findings to support research hypotheses and project goals.
- **Data Visualization:** Designed interactive dashboards and visual reports in **Tableau** and **Power BI** to communicate trends, indicators, and outcomes to researchers and program managers.
- **Research & Insight Development:** Conducted literature reviews and synthesized evidence to support ongoing human development research initiatives and compiled research insights into structured reports and presentations for internal and external stakeholders.
- **Data Quality & Documentation:** Ensured accurate documentation of data sources, analysis workflows, and methodologies while Adhering to ethical guidelines and data governance standards when handling sensitive health and developmental data.

Kenyatta National Hospital

Data Analyst

[2 May 2022 – 30 Sep 2022]

I was attached at Kenyatta National Hospital Department for Medical Research and Audit whereby I was

tasked to perform the following duties;

- **Data Management & Processing:** Collected, cleaned, and managed medical and research datasets ensuring accuracy, completeness, and reliability and used **SQL** and **Python** to extract, validate, and transform large clinical and research data files.
- **Data Analysis & Insights:** Conducted statistical and exploratory analysis using **Python Libraries** to identify trends in disease patterns, patient outcomes, and treatment effectiveness.
- **Data Visualization & Reporting:** Developed interactive dashboards and research visualizations using **Tableau** and **Power BI** to present study results and health indicators and also produced regular analytical reports for research leads, highlighting key findings and emerging trends.

SKILLS

Python Programming / SQL / Microsoft Office / Microsoft Excel / Tableau / Matplotlib / Pandas / Data Visualization / Seaborn / Numpy / Data Analysis
